

ROMEO DANCE MIRROR

MODULAR, EXTREMELY PRACTICAL AND STABLE.
IT IS EQUIPPED WITH FOUR STRONG WHEELS, LOCKING ON FRONT ONES
AND HANDLES FOR EASY MOVING

ROMEO structure is made of very durable painted steel. Safe mirror (thickness 6 mm) and standard measure of 100 x 190 cm. It can easily be placed inside the dance halls or any room where it is not possible or allowed to use the wall. A perfect choice in theatre for ballet performances or to create a regular mirrored wall. Mirrors have no lateral structures, so modules can be placed close to each other and thus create a continuous mirrored wall. After use, you can store them in little space.
